Experience

Dec 2023 – present Remote	**Credo Technology Services,** *Infosec Engineer Intern* Working on the deployment of ForgeRock Identity and Access Management Solutions, including integrating applications using SAML, OIDC, and OAuth.
Jun 2023 – Feb 2024 Remote	**Logic Finder,** *Cyber Security Engineer* ↗ Contributing to a security product, focusing on the detection of multiple cyber security attacks using ML techniques.
Jul 2023 – Aug 2023 Blue Area, Islamabad	**Nayatel,** *Cyber Security Intern* ↗ Gained hands-on experience in diverse areas of systems and security, including network configuration, SIEM solutions, penetration testing, and Linux administration.
Dec 2022 – present FAST NUCES, Islamabad	**Protect Lab,** *Software Engineer* Worked on Aniketos (Internal Network Scanner), developed Protect Lab's website, and overseeing multiple ongoing projects within the lab.
Jul 2022 – Oct 2022 Remote	**ThincsCorp,** *Threat Hunting Intelligence and Research Intern* ↗ Gained experience in Risk Management and Malware analysis with Cuckoo and FLARE.
Jul 2022 – Oct 2022 FAST NUCES, Islamabad	**Quest Lab,** *Software Engineering Intern* ↗ Gained hands-on experience in web scraping and full stack development.

Education

Aug 2020 – Jun 2024	**FAST, National University of Computer and Emerging Sciences,** *BS Cyber Security* ↗

Projects

SecT, *Zero Trust Network Access Solution (Ongoing)*
Replacing traditional VPNs with a Zero Trust Network, providing minimal, role-based access to resources through a centralized management console.

Aniketos, *Internal Network Scanner*
A full-stack application with client-server architecture in Tkinter, Flask, and Angular for vulnerability assessments by scanning internal network hosts.

Jihaadi, *Windows-11 Defender Evasion* ↗
Python compiler for obfuscating payloads to bypass Windows Defender & SmartScreen.

RiskWarden, *ML Based IDS* ↗
Web-based AI-assisted IDS to detect SQLi attacks using Neural Networks and Natural Language Processing.

Certifications

Certified Application Security Practitioner	**Microsoft Certified - Azure Fundamentals** ↗ AZ-900

Skills

Penetration Testing | Digital Forensics | Malware Analysis | Web Security | Network Security | Data Scraping | Cloud Computing: Azure, AWS | C/C++ | Python | Flask | MERN | NextJS | Golang | HTML/CSS/JS | SQL | ELK Stack | Devops: Docker, Jenkins | Git | IAM | ForgeRock Identity Platform | OAuth | OIDC | SAML

Achievements

Gold Medal, *Secured Gold Medal in consecutive 7 semesters for academic achievement.*

Rector's List of Honor, *Recognized in the Rector's List as one of the top 4 GPA achievers.*

Dean's List of Honor, *Recognized 5 times in the Dean's List for maintaining a GPA of 3.5 and above.*

Quiz Competition Winner, *Closing ceremony of Ignite National Hackathon 2023.*
